Domain clean by Yandex

Domain clean by Opera

Your site does not appear to be blacklisted. If you still see security warnings on your site, sign up for a more complete scan, manual audit, and guaranteed blacklist removal.

# Hardening Improvements

### Protection

No website application firewall detected. Please install a cloud-based WAF to prevent website hacks and DDoS attacks.

### Security Headers

Missing security header for ClickJacking Protection. Alternatively, you can use Content-Security-Policy: frame-ancestors 'none'. Affected pages:https://mrjcd.com/404javascript.jshttps://mrjcd.com/404testpage4525d2fdc
Missing security header to prevent Content Type sniffing. Affected pages:https://mrjcd.com/404javascript.jshttps://mrjcd.com/404testpage4525d2fdc
Missing Strict-Transport-Security security header.
Missing Content-Security-Policy directive. We recommend to add the following CSP directives (you can use default-src if all values are the same): script-src, object-src, base-uri, frame-src
